

Richard Kapp & The Gowns

## **AMOK**- The Lyrics

### **Conditioned Man** (It's A Conditioned Man's World)

you, you follow the wrong rules  
made by anxious men  
they, they gave you the wrong tools  
like fools we do what we can

and then they left us alone here  
stuck in the middle of nowhere

climb a hill  
and show some will  
be a conditioned man, climb again

and you will see that...

...we, we know what's best for you  
and you believe anything  
they give you the headlines  
trust us, no reason to think

they gave you distractions  
and mass media aswell

climb a hill  
and show some will  
be a conditioned man, climb again

they, they will reward you  
and condition you well  
you, did you find answers  
or just trying to be swell,  
trying to be swell,  
trying to be swell  
trying to be swell

## **Ghost In The Lime**

when I take a walk around old streets  
then I try to talk quite discreetly  
I see pictures of their lifetime  
twinkling like ghosts through the lime

underneath the crack there lies  
truth about their sweet despise  
like mindless rats in dusty sheds  
they're hiding

stand up and leave behind  
the ghosts and fears that made you blind (2x)

once in your life, make decisions  
don't be the visions of the ghosts  
they will try to want you, hunt you  
till you're one of them today

when I take a walk around old streets  
then I feel like I am on speed  
I see pictures of my lifetime  
twinkling like ghosts through the lime

all the tiny cuts and breaks  
like tears that rise from big mistakes  
don't get too close, they'll grow in you  
they're hiding

stand up and leave behind  
the ghosts and fears that made you blind (2x)

once in your life, make decisions  
don't be the visions of the ghosts  
they will try to want you, hunt you  
till you're one of them today

when I take a walk around old streets  
then I try to stalk my own feet  
I see pictures of my lifetime  
twinkling like ghosts through the lime

## Happy Sun

how, please tell me right now,  
did you learn to have so much fun

and how, do you ignore with success,  
when friends tell you they are a mess

well, we live in a world  
which turns around a happy sun

here is my advice: If you see something real sad  
don't care, get it out of your head now  
if you don't feel alright inside  
don't fight your troubles - just dance all night

well, we live in a world  
which turns around a happy sun

but it won't turn around you  
your sun is not my sun  
'cause mine won't shine at night

how, don't tell me a lie  
do you feel when you see someone cry  
and how come you're afraid  
of tears, aging and small debate

well, we live in a world  
which turns around our happy sun

but it won't turn around you  
your sun is not my sun  
'cause mine won't shine at night  
but that helps  
me to see in the dark  
more clearly

how, please tell me right now,  
did you learn to absorb the gloom  
and how come you care less  
about styling and loneliness

well, I live in a world  
which turned away from happy sun  
from fervent fun  
but one day you might think it's alright  
that our happy sun can burn our houses down  
that we have built upon the wish that our life's about having fun,  
having fun

## Be Unusual

today I cut my jeans  
fulfilling all my dreams  
of being so unique

I listen to the charts  
but still I think that I  
have special taste in arts

I know that I am not like anyone else in town

be unusual and try to simulate your not  
so usual and try to masquerade yourself (2x)

I watch some Michael Bay  
but then I wouldn't say  
that I'm his biggest fan

today I dyed my hair  
you thought I wouldn't dare  
I look like Tony Blair

I know that I am not like anyone else in town  
although sometimes it feels I might disappear

be unusual and try to simulate your not  
so usual and try to masquerade yourself (2x)

listen to those pretty chords  
they will only play for you  
but you probably don't wanna know  
that others may have heard this song before

so many trials  
and so many styles  
but still you are the same (2x)

be unusual and try to simulate your not  
so usual and try to masquerade yourself (4x)  
redefine yourself, reincarnate yourself but why not simply choose yourself: be unusual

## **You Fell Out Of My Bed**

I close the door  
but all my thoughts  
and sorrows, too  
are here  
all they want is some more of me

lying down in my bed  
hiding from the words that you said  
hiding from what drives you mad

I hear the wind blow outside,  
it's alright

there's a tiny little entrance inside  
I might be able to get in  
there's a tiny little entrance inside  
I might be able to get in

I did succeed, I'm on it now  
that's so sweet of you  
to embrace that old face  
of mine

where the hell are we now  
that rings a bell  
it's time to wake up  
but I can't without you

I hear the wind blow inside,  
it's alright

there's a tiny little entrance inside  
I might be able to get out  
there's a tiny little entrance inside  
I might be able to get out

something's wrong  
there was a hole  
„you fell out of my bed“  
where the words you just said

## Master Of Tiramisu

yo man, what's up, I feel the fucking fine, no shit, I mean I need a fucking rhyme so keep your fucking dime, you don't wanna mess, I'll fuck your ass, I can't care less, so I confess that I'm still:

the master of tiramisu

all I need is mascarpone cheese,  
coffee, liquor and a little sugar breeze plus eggs (2x)

alright man, you wanna feel the beat than  
you have to come, find some from the dead end street  
and now I'm home, I'm bitch'n in the kitchen, find another recipe

the master of tiramisu

all I need is mascarpone cheese,  
coffee, liquor and a little sugar breeze plus eggs (2x)

I'm the master of tiramisu  
I'm the master of tiramisu  
I'm the master of tiramisu  
I'm the master ....

## **I Am So In Love**

he spilled his tea right on her knee - oh, my  
she took his hand and smiled at him - don't care,  
he used to feel like a small fool, oh boy,  
but not with her, those things are cool

he used to say I'm so afraid  
to tell you that I'm so in love,  
I am so in love, I am so in love with you

she used to rent some DVDs, on her own  
romantic style or culture clash, all alone  
she used to think that he might hate that stuff,  
but he just smiled and said: "Let's go for it"

she used to say I'm so afraid  
to tell you that I'm so in love,  
I am so in love, I am so in love with you

they used to hide their little flaws  
refusing talks about their cause  
they both were used to playing games  
but now they know: the one you love  
is not to blame

when you are away I feel just fine,  
I used to think that you are mine,  
but now I know you will return,  
till then my heart will always burn

they used to say I'm so afraid  
to tell you that I'm so in love,  
I am so in love, I am so in love,  
I am so in love with you  
so in love with ...

## Let It Go

life seemed easy long ago  
we tried to force it but didn't know  
time flies by so ruthlessly  
slowly it became our enemy

no one ever thought about the time  
when cold shivers run down our spine  
and things have changed  
I'm still here, you're still here, we won't lose our memory

there's a picture in my head  
your face was glowing in sunlight  
you were smiling, you looked so bright  
but now this picture hurts inside

no one ever thought about the time  
when cold shivers ran down our spine  
and things have changed  
I'm still here, you're still here, we won't lose our memory

we thought this is forever  
but now we know we were too clever to fool ourselves

the differences made  
us stronger and relate  
much better to ourselves  
and then they never fade away  
from memory  
and similarity will stay with us

we just have to let it go  
and then it might show  
that if we meet again in time  
it's somewhere we don't know

we just have to let it go  
and then it might show  
that if we meet again in time  
it's somewhere we don't know

maybe somewhere good, where there is no pain  
where your face will glow again

life seemed easy long ago  
we tried to force it but didn't know

I know it seems so cruel and low  
but we just have to let it go

## Walking The Road

I'm walking the road to nowhere but I know  
that something is waiting for me  
will it be good or real bad, give me a clue  
most likely that's up to you

which way to go is not about choice  
it's about moving your feet  
don't lose your smile and don't lose your voice  
it's something that cannot be beat, cannot be beat

I'm walking the road to nowhere  
walking the road to nowhere  
and there you will find  
anything you were waiting for

what matters most are the footprints you leave  
and that you believe in yourself  
you can explore all the details in life  
as long as you don't strive for wealth, don't strive for wealth

you really don't have to get there first  
it's about how you got there  
all your confusions will slowly resolve  
they only need time to evolve, time to evolve

I'm walking the road to nowhere  
walking the road to nowhere  
and there you will find  
anything you were waiting for

I'm walking the road to nowhere but I know  
that something is waiting for me  
will it be good or real bad, give me a clue  
most likely that's up to you, to you, most likely up to you

## Each Day's A Gift

don't forget that each day is a gift  
but it's hidden somewhere

it might not be the big thing that you  
wish for or have expect

don't forget that each day is a gift  
but it's hidden somewhere

you don't need to go outside my friend  
it's in front of your eyes

a single day will make you grow a little more  
it might offer you a chance to change your plans  
you might fall in love or tell someone goodbye

don't forget that each day is a gift  
but it's hidden somewhere

it might not be the big thing that you  
wish for or have expect

don't forget that each day is a gift  
but it's hidden somewhere

you don't need to go outside my friend  
it's in front of your eyes

a single day will make you grow a little more  
it might offer you a chance to change your plans  
you might fall in love or tell someone goodbye

don't forget that each day is a gift  
but it's hidden somewhere

don't forget that each day is a gift  
but it's hidden somewhere

don't forget that each day is a gift  
but it's hidden somewhere

don't forget that each day is a gift  
but it's hidden somewhere

## **Amok**

you've been working and lurking till night  
but they don't give a damn  
what a lousy, outrageous and permanent scam

but one day they will feel what they've done to me  
and then spirits, emotions, devotions are free

of the judgements and laughter again  
where's your arrogance  
you can't swallow your pain  
but neither can I

here is my notice, my last little gem  
here is my notice, my last little gem  
here is my notice, my last little gem  
and here is my notice, my last little gem

they thought me to keep  
all my thoughts to myself  
but the deep indignation was personal wealth

but one day they will  
feel what they've done to me  
and then spirits, emotions, devotions are free

of the judgements and laughter again  
where's your arrogance  
you can't swallow your pain  
but neither can I

here is my notice, my last little gem  
here is my notice, my last little gem  
here is my notice, my last little gem  
and here is my notice, my last little gem

and how many times a day your thoughts are with me  
or somebody else except yourself  
count them and you will see the small  
probability of our small world's repentance

when you watch the news  
you will probably see my face  
and think that he looks like a very nice boy  
what went wrong with his life  
all he was asking for  
was love
